IQ3 Enterprise for Maritime Surveys and Inspections

The Revcord IQ3 Enterprise Solution allows you to create electronic on-hire/off-hire survey reports, vessel maintenance, periodic condition inspections, offshore oilfield equipment inspections, construction inspections, or any protocol or compliance management service related to the supply chain.

THE PROBLEM:	THE SOLUTION:	THE VALUE:
☑ Survey & Inspection Reports Take Several Days to Create a Final Report	☑ Customized Report Templates are Developed for Your Inspection Process	☑ Report Creation is Completed at the Click of a Button
☑ Wasted Time Due to Limited Collaboration	☑ Live Monitoring and Video Conferencing Capabilities	☑ Significantly Increases Documentation Accuracy
☑ Unorganized Reports, Findings, Photos and Data	☑ Survey Reports Organized & Stored in a Secure Repository	☑ Streamlined Storage of All Documents, Regardless of Who Created the FIles
☑ Inaccuracies in Documentation of Onsite Inspection Information	☑ Customer's Inspection Process Flows are Integrated into the Application	☑ Dramatically Reduces Need for On-Site Follow-Ups, Freeing Time and Reducing Expenses
☑ Increased Liability from Lack of Transparency	☑ Surveys & Inspections are Stored & Securely Accessible in the Cloud	☑ Live Recording and Centralized Documentation Substantially Reduces Liability Issues
☑ **Unnecessary Vessel Downtime Due to Lengthy Inspections**	☑ **IQ3 ENTERPRISE**	☑ **Reduces Downtime from Days to Hours**

IQ3 is a Smart Device Mobile Application that enables video event recording and bookmarking customized to your processes and adds real-time collaboration tools, streaming from any location from an Android or iOS device via Wi-Fi or Mobile Data access where available (based on service carrier).

Completed reports are organized and stored in a cloud-based data management system, ensuring proper Chain of Custody protocols are followed. All filed reports are easily accessible and searchable to authorized users and can be exported to the ERP-type systems for review and billing and sent to clients and other back-office functions.
