

Super-charge your permits, licensing & code enforcement inspections process!

Integrated Partner:

Revcord is a fully integrated MGO Partner. Revcord's IQ3 Enterprise Software provides MGO Customers with an inspection tool like no other. Designed to streamline the inspection process either in the field or virtually. IQ3 is an easy-to-use APP-based tool configured to the normal workflow and checklist of the inspector and can be used on any Android or iOS mobile device. IQ3 can also virtualize the Inspector workload where necessary. Conducting Remote Video Inspections, or RVI, is especially useful in reducing "re-inspect" trips and conducting standard annual "re-permitting" inspections. Request a free demo and have all your questions addressed in person!

Capabilities:

- Compatible with any smart device (Android or Apple IOS).
- Inspector workflow is configured to match inspection type (Ex., Code Enforcement, Permitting, or fire)
- Reports are automatically completed and uploaded.
- Capture photos and record video of every inspection event.
- IQ3 App equipped with digital "On Screen" measuring tool.
- Live stream capability of every event.
- Video Conferencing with up to 10 participants during any inspection.
- Initiate RVIs from the MGO Web Console
- Schedule and Initiate On-Site Inspections from MGO Mobile App
- IQ3 Inspection Confirmations immediately accessible in the MGO portal.
- Supervisor Event Monitoring from the MGO Web Console
- Reports Requests, Generation, and Sharing from MGO Web Console
- ...and much more!

Security:

- HIPAA and CJIS-compliant Security Protocols ensure data integrity and customer confidentiality.
- OAuth 2.0 Secure Authentication and Authorization
- Fully Redundant Cloud Infrastructure with 99.999% Availability.
- Load Balancing and Caching Mechanisms for Optimum Performance
